-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

- Claims 1-4, 6-13, 15-17, 20, 22-25 remain pending.

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 02/19/2008 has been entered.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claim 1 is rejected under 35 U.S.C. 102(e) as being anticipated by Lee. (US 2003/0128676)

- In reference to claim 1

In Figures 4 and 5 Lee teaches a method that includes:

- Forwarding data for a mobile station (MS) via a tunnel (Figure 4 "transmitting packet data"; paragraph [0072])
- Releasing the tunnel to support a reduced resource dormant state (Figure 4 steps 20-22; paragraph [0073])
- Receiving new data for the MS after releasing the tunnel (Figure 5 step 30; paragraph [0077])
- In response to receiving new data for the MS, sending a reconnection request for establishment of a new tunnel (Figure 5; paragraph [0078-0079])
- Forwarding the new data via the new tunnel (Figure 5 "transmitting packet data"; paragraph [0079])

Allowable Subject Matter

Claims 15-17, 20 and 22-24 are allowed.

Claims 2-4, 6-13, and 25 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The following is a statement of reasons for the indication of allowable subject matter:

Independent claims 15 and 23 are allowed because the prior art of record fails to teach or fairly suggest a system or method that includes a packet control function apparatus releasing a tunnel between the packet control function and a packet data serving node utilized to forward data for a mobile station after a period of mobile station session inactivity and receiving a reconnection request from the packet data serving node for establishment of a new tunnel.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to BRIAN ROBERTS whose telephone number is (571)272-3095. The examiner can normally be reached on M-F 10:00-7:30.
